#### Please bear the following in mind:

1. The departments have agreed this schedule so that as far as possible (and it is not always possible) you are not approaching a final deadline in more than one subject at any one time, and you must stick to the deadlines printed here for that reason. They are published to help you plan your time.
2. If you are struggling, ask your teacher for guidance well before the deadline, since you will not be allowed further time to complete the work once the deadline has passed.
3. Doing coursework for one subject is never accepted as a reason for not completing prep in another, and you should bear this in mind when planning your time.
